Our school initiatives are showing substantial progress toward our targets

After reviewing our 2016 *Investing for Success* agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our initiatives as needed to ensure every student succeeds.

Initiatives implemented include:

- Initiative 1- The development of an ongoing cycle of data collection, analysis and monitoring of student performance to inform the teaching of literacy (reading and writing) and adjust programs to meet the learning needs of all students.
- Initiative 2 – The implementation of the Salisbury State School Learning to Read and Reading to Learn initiatives with a focus on the explicit teaching of reading and writing strategies.
- The implementation of a regular feedback cycle using an agreed upon whole school process.
